

February 10, 2007

Southern California College Cluster Representative Meeting

In attendance: Seng Peng, Juan Gonzalez, Fabian Alberto and Destinee Cooper

Lunch at: Olive Garden

- College Cluster organization
 - Until August when the elected officers take over, Destinee is the representatives point of contact to help make sure that the representatives get what they need from the office in terms of paperwork processing and funding.
 - Budget: SMYSP has worked out the details of how they will be able to help out in funding, and is providing the region with a one-time gift of \$200. The representatives decided that Fabian would be the keeper of the money account.
 - SMYSP has also developed a donation letter for the College Clusters to use to help with their efforts to get supplies, etc. Destinee will be emailing a copy of this letter out to the representatives when she gets back into the office. **(action item)**
- The map activity that Destinee has done with other college cluster regions has been put off until the retreat on March 24, 2007.
- Plan for Southern California's College Cluster events:
 - The representatives want to organize a mentoring program and so need a copy of the alumni within the region so they can start to contact and organize **(action item)**.
 - The representatives also started to talk about getting donations from various places (including Dell and Medi-line) for a possible raffle to help raise money for the region too. Destinee told them to wait so that she could make sure that such donations were not stepping on the toes of Stanford University development department or SMYSP. **(action item)**
