Mentor and Mentee Parameters

This form is for the Mentor and Mentee to use to establish the parameters of their relationship. It is only a starting point and meant to guide a mentor and mentee through the process of establishing their relationship.

We are voluntarily entering into a mentoring relationship that we expect to benefit us both. The following sets the parameters of the relationship and includes the expectation that we will continually evaluate the relationship to ensure it meets both the mentor/mentee needs.

Specific role of the mentee: As a result of working with a mentor I would like to accomplish the following:

Specific role of the mentor: I will support my mentee's developmental process by: (i.e. Helping to develop and monitor his/her mentoring action plan, sharing educational & career-related insight, and expanding his /her professional network):

Frequency of communication:

- Weekly
 Bi-Monthly

- Monthly
 Quarterly

Primary Method of Communication:

- Phone:
 In-person:

- E-Mail:
 Online (Facebook/MySpace)

Mentor/Mentee Guidelines

- As a willing participant in the Mentoring Program, I commit to working with my mentor/mentee, attending all scheduled meetings with my mentor/mentee, and communicating with my mentor/mentee regularly. In cases of emergencies and I am unable to keep a meeting date, advanced notification will be made to my mentor/mentee to reschedule. I will develop personal goals and be open to coaching and feedback from my mentor/mentee.
- Things discussed during our meetings are confidential. If there is threat of physical harm to either party or to others, the confidentiality agreement must be broken to seek protection for the endangered individual.
- We agree to a *no-fault* conclusion of this relationship if, for any reason, it seems appropriate. Either party has the option of discontinuing the relationship for any reason, and he or she should discuss this decision with the Mentor Coordinator before terminating the relationship.
- By entering into the mentoring program, the participants agree that neither Stanford Medical Youth Science Program, nor the SMYSP Alumni Association has any liability for the guidance, suggestions and/or advice provided to them during the mentoring relationship.
